1 NATURE OF OPERATIONS

Village Farms International, Inc. (“VFF” the parent company, together with its subsidiaries, the “Company”) is incorporated under the *Canada Business Corporation Act*. VFF’s principal operating subsidiaries as at June 30, 2019 are Village Farms Canada Limited Partnership (“VFCLP”), Village Farms, L.P. (“VFLP”), and VF Clean Energy, Inc. (“VFCE”). The address of the registered office of VFF is 4700 80th Street, Delta, British Columbia, Canada, V4K 3N3. VFF owns a 65% equity interest in Village Fields Hemp USA LLC (“VF Hemp”), a 60% equity interest in Arkansas Valley Green and Gold Hemp (“AVGG Hemp) and a 50% equity interest in Pure Sunfarms Corp. (“Pure Sunfarms”), all of which are recorded as Investments in Joint Ventures (note 7).

The Company’s shares are listed on the Toronto Stock Exchange under the symbol VFF and are also listed in the United States on the Nasdaq Capital Market (“Nasdaq”) under the symbol VFF.

The Company owns and operates sophisticated, highly intensive agricultural greenhouse facilities in British Columbia and Texas, where it produces, markets and sells premium-quality tomatoes, bell peppers, and cucumbers. The Company also markets and sells third party produce through its subsidiaries. The Company, through its subsidiary VFCE, owns and operates a 7.0 MW power plant that generates electricity. The Company’s joint venture, Pure Sunfarms, is a licensed producer and supplier of cannabis products to be sold to other licensed providers and provincial governments across Canada and internationally. The Company’s joint ventures, VF Hemp and AVGG Hemp, are cultivators and extractors of high cannabidiol (“CBD”) hemp in multiple states throughout the United States.

2 BASIS OF PRESENTATION

Statement of Compliance

The Company’s unaudited condensed consolidated interim financial statements (“interim financial statements”) have been prepared in accordance with International Financial Reporting Standards (“IFRS”) and its interpretations, as issued by the International Accounting Standards Board (“IASB”), as applicable to interim financial statements, including International Accounting Standard (“IAS”) 34, Interim Financial Reporting. They do not include all of the information required for full annual financial statement disclosures and should be read in conjunction with the Company’s audited annual consolidated financial statements for the year ended December 31, 2018, which were prepared in accordance with IFRS.

Basis of Presentation

The interim financial statements are prepared on a going concern basis. The accounting policies have been applied consistently in all material respects. These interim financial statements have been prepared by applying the same accounting policies, assessments of estimates and judgments, and methods of computation as compared with the most recent annual consolidated financial statements with the exception of IFRS 16, *Leases* as described in Note 3.

Basis of Measurement

The interim financial statements have been prepared on the historical cost basis except for the following material items in the interim statement of financial position (“interim statement of financial position”):

- biological assets are measured at fair value less costs to sell;
- land is valued at fair market value; and
- marketable equity securities are measured at fair value through profit and loss.

Functional and Presentation Currency

The functional currency for each entity included in these interim financial statements is the currency of the primary economic environment in which the entity operates. These interim financial statements are presented in United States dollars (“U.S. dollars”) which have been rounded to the nearest thousands, except per share amounts. Currency conversion to U.S. dollars is performed in accordance with IAS 21, *The Effects of Changes in Foreign Exchange Rates*.

(In thousands of United States dollars, except share and per share amounts, unless otherwise noted)

3 CHANGES IN ACCOUNTING POLICIES

These changes were made in accordance with the applicable transitional provisions.

Amendments to IFRS 11, *Joint Arrangements*, and IAS 28, *Investments in Associates and Joint Ventures* establishes the criteria for accounting for joint ventures. Investments in joint ventures are accounted for using the equity method. The equity method involves recording the initial investment at cost and subsequently adjusting the carrying value of the investment for the proportionate share of the profit or loss, other comprehensive income or loss and any other changes in the joint venture's net assets such as dividends. At each statement of financial position date, the Company will consider whether there is objective evidence that its investment in the joint venture is impaired. If there is such evidence of impairment, the Company will determine the amount of the impairment and a loss will be recorded in the condensed consolidated interim statement of income (loss) ("interim statement of income (loss)"). The adoption of the amendments to IFRS 11 did not have and impact on the Company's interim financial statements.

IFRS 16, *Leases*, was issued in January 2016 to replace IAS 17, *Leases*, and related Interpretations. IFRS 16 establishes the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer (lessee) and the supplier (lessor) to increase transparency and comparability among organizations by requiring the recognition of right-of-use assets and lease liabilities on the balance sheet.

On January 1, 2019, the Company adopted IFRS 16 using the updated modified retrospective transition approach and did not restate prior periods. The Company's classes of assets include land leases, building leases and equipment leases.

On adoption, the Company recognized lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of IAS 17, *Leases*. These lease liabilities were measured at the present value of the remaining lease payments, discounted using the borrowing rate of the Company. The weighted average incremental borrowing rate applied to the lease liabilities on January 1, 2019 was 6.25%. These leases are included in right-of-use assets, short-term lease liabilities and long-term lease liabilities in our consolidated balance sheet. Right-of-use assets are amortized on a straight-line basis over the lease term.

For leases previously classified as finance leases the entity recognized the carrying amount of the lease asset and lease liability immediately before transition as the carrying amount of the right of use asset and the lease liability at the date of initial application.

Additionally, the Company has elected the short-term lease exception for all classes of assets, and does not apply the recognition requirements for leases of 12 months or less, and recognizes lease payments for short-term leases as expense either straight-line over the lease term or as incurred depending on whether the lease payments are fixed or variable. These elections are applied consistently for all leases.

Depreciation related to the greenhouse facilities and equipment is expensed in cost of sales. Land is the only item of property, plant and equipment that is stated at fair values. On March 31, 2019, Pure Sunfarms exercised its option to acquire the Delta 2 assets and operations. Delta 2 land was disposed of as part of that transaction (note 7). The revaluation surplus related to Delta 2 of $1.0 million, net of taxes, that was previously recorded as a component of equity, was reclassified and included as part of the gain on disposal of assets recorded in the interim statements of income (loss).

7 INVESTMENT IN JOINT VENTURES

Pure Sunfarms Corp.

On June 6, 2017, the Company entered into an agreement to form Pure Sunfarms, a B.C. corporation, with Emerald Health Therapeutics Inc. (“Emerald”). The purpose of Pure Sunfarms is to produce, market and distribute cannabis in Canada. Village Farms has a 50% ownership interest in Pure Sunfarms in the form of common shares. The Company has concluded that the agreement constitutes a joint arrangement where joint control is shared with Emerald and therefore has accounted for Pure Sunfarms in accordance with IFRS 11 and IAS 28, using the equity method.

On July 5, 2018, the Company and Emerald Health Therapeutics Canada Inc. (a subsidiary of Emerald) (together, the “Shareholders”) entered into a Shareholder Loan Agreement (the “Loan Agreement”) with Pure Sunfarms, whereby, as at June 30, 2019, the Shareholders had each contributed $10,082 (CA$13,000) in the form of a demand loan to Pure Sunfarms. Effective January 1, 2019, the loan amounts bear simple interest at the rate of 6.2% per annum, calculated semi-annually. Interest will accrue and be payable upon demand being made by both Shareholders (see note 10).

On March 31, 2019, Pure Sunfarms exercised its option to utilize the Delta 2 assets and operations. The contribution of the assets has been accounted for as a disposal of the land, greenhouse facility and other assets in exchange for 25,000,000 common shares of Pure Sunfarms. This was a non-cash transaction, and it was estimated that the fair value of the land, building and other assets was $18.7 million (CA$25 million) at the date of contribution. The Company recognized a gain of $13.6 million on the contribution of the fixed assets. The Company had previously recorded a fair value increase on the Delta 2 land being contributed (2016 - $2.0 million), which was recorded in accumulated other comprehensive income, net of taxes of $1.0 million. As a result of the contribution of the Delta 2 land, this amount has been recycled to the interim statements of income, and has been included in the gain noted above. As at June 30, 2019, the total investment in Pure Sunfarms of US$55.1 million is recorded in the interim statements of financial position. Final determination with respect to the transfer of the land, building and equipment will not be made until year end. As such, the investment and related gain on disposal of assets may be adjusted at year end.

The Company's share of the joint venture consists of the following:

Balance, January 1, 2019	$ 18,108

Village Fields Hemp USA LLC

On February 27, 2019, the Company entered into a joint venture with Nature Crisp, LLC ("Nature Crisp") to form VF Hemp for the objective of outdoor cultivation of high percentage cannabidiol ("CBD") hemp and CBD extraction in multiple states throughout the United States. VF Hemp is 65% owned by the Company and 35% owned by Nature Crisp. Under the terms of the VF Hemp Joint Venture Agreement, the Company will lend approximately US$15 million to VF Hemp for start-up costs and working capital. Capital investment for extraction capabilities is to be determined and dependent on future decisions with respect to the locations of hemp production and the extraction operations. The Company has concluded that the agreement constitutes a joint arrangement where joint control is shared with Nature Crisp and therefore has accounted for VF Hemp in accordance with IFRS 11 and IAS 28, using the equity method.

On March 25, 2019, the Company entered into a Grid Loan Agreement (the "Grid Loan") with VF Hemp, whereby, as at June 30, 2019, the Company had advanced $5,193 in the form of a grid loan to VF Hemp. The Grid Loan has a maturity date of March 25, 2022, and will bear simple interest at the rate of 8% per annum, calculated monthly (note 10).

The Company's share of the joint venture consists of the following:

Arkansas Valley Green and Gold Hemp

On May 21, 2019, the Company entered into a joint venture with Arkansas Valley Hemp, LLC ("AV Hemp") for the objective of outdoor cultivation of high percentage cannabidiol (CBD) hemp and CBD extraction in Colorado. The joint venture, AVGG Hemp, is 60% owned by the Company, 35% owned by AV Hemp, and 5% owned by VF Hemp.

Under the terms of the AVGG Hemp Joint Venture Agreement, the Company will lend approximately US$5 million to AVGG Hemp for start-up costs and working capital. The loans bear simple interest at the rate of 8% per annum, calculated monthly (note 10). To the extent cash is available from positive cash flow, the AVGG Hemp has agreed to repay the Company with respect to any such loans, in the range of $2 million to $5 million in the initial two years following the formation of AVGG Hemp. As at June 30, 2019, the Company had loaned AVGG Hemp approximately $552.

The Company has concluded that the agreement constitutes a joint arrangement where joint control is shared with AV Hemp and therefore has accounted for AVGG Hemp in accordance with IFRS 11 and IAS 28, using the equity method.

The Company's share of the joint venture consists of the following:

The Company's subsidiary has two loan agreements in place with a Canadian Chartered bank. As at June 30, 2019, the balance on the non-revolving fixed rate loan was US$1,219 (December 31, 2018 – US$1,279) and the balance on the uncommitted credit facility for capital expenditures was US$127 (December 31, 2018 – US$138).

The Company has a line of credit agreement with a Canadian Chartered Bank ("Operating Loan"). The revolving Operating Loan has a line of credit up to CA$13,000 and variable interest rates with a maturity date on May 31, 2021 and is subject to margin requirements stipulated by the bank. As at June 30, 2019, US$5,000 was drawn on this facility (December 31, 2018 - US$2,000), which is available to a maximum of CA$13,000, less outstanding letters of credit totaling US$150 and CA$38.

The Company's borrowings ("Credit Facilities") are subject to certain positive and negative covenants. As at June 30, 2019 the Company was in compliance with all covenants on its Credit Facilities.

Accrued interest payable on the credit facilities and loans as at June 30, 2019 was $177 (December 31, 2018 - $184) and these amounts are included in accrued liabilities in the interim statement of financial position.

As security for the FCC Loan, the Company has provided promissory notes, a first mortgage on the VFF-owned greenhouse properties (excluding the Delta 3 and Delta 2 greenhouse facilities), and general security agreements over its assets. In addition, the Company has provided full recourse guarantees and has granted security therein. The carrying value of the assets and securities pledged as collateral as at June 30, 2019 was $158,887 (December 31, 2018 – $114,554).

(In thousands of United States dollars, except share and per share amounts, unless otherwise noted)

As security for the Operating Loan, the Company has provided promissory notes and a first priority security interest over its accounts receivable and inventory. In addition, the Company has granted full recourse guarantees and security therein. The carrying value of the assets pledged as collateral as at June 30, 2019 was $36,996 (December 31, 2018 - $38,007).

9 FINANCIAL INSTRUMENTS

As at June 30, 2019 and December 31, 2018, the Company's financial instruments included cash and cash equivalents, trade receivables, notes receivable, other receivables, patronage stock, accounts payable, other current liabilities and notes payable. Due to the short-term maturities of cash and cash equivalents, accounts receivable, accounts payable and other current liabilities, the carrying amounts approximate fair value at the respective statement of financial position dates. The carrying value of the notes receivable and notes payable approximate their fair value based on a comparison with the prevailing market interest rates. The fair values of the Company's notes receivable and notes payable are level 2 measurements in the fair value hierarchy. All other financial assets and liabilities are level 1.

There were no financial instruments categorized as Level 3 as at June 30, 2019 and December 31, 2018. There were no transfers of assets or liabilities between levels during the three and six months ended June 30, 2019 and December 31, 2018, respectively.

Interest income, interest expense and gains and losses from loans, receivables and other financial liabilities are recognized in the interim statements of income (loss). The following table summarizes interest income and expense for the three and six months ended June 30:

	Three months ended June 30,				Six months ended June 30,			
	2019		2018		2019		2018	
Interest income earned on cash and cash equivalents	$	-	$	3	$	25	$	3
Interest income earned on other financial assets	$	211	$	-	$	322	$	-
Interest expense from other financial liabilities	$	714	$	688	$	1,457	$	1,286

Management of financial risks

The Company, through its financial assets and liabilities, is exposed to various risks. The following provides a measurement of some of these risks as at June 30, 2019 and December 31, 2018. The Company uses financial instruments only for risk management purposes, not for generating trading profit.

i) Credit risk

Credit risk is the risk that the Company will incur a loss due to the failure by its customers or other parties to meet their contractual obligations. Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents, trade receivables and other receivables. The Company limits its exposure to credit risk by placing its cash and cash equivalents with high credit quality financial institutions.

The Company's trade receivables had two customers that represented more than 10% of the balance of trade receivables, representing 11.7% and 11.0% of the balance of trade receivables as at June 30, 2019 (December 31, 2018 - two customer represented 13.8% and 11.5%). The Company believes that its expected credit losses are limited due to the protection afforded to the Company by the *Perishable Agricultural Commodities Act* (the "PACA") for its sales in the United States, which represent the majority of the Company's annual sales. The PACA protection gives a claim filed under the PACA first lien on all PACA assets (which include cash and trade receivables of the debtor).

(In thousands of United States dollars, except share and per share amounts, unless otherwise noted)

As at June 30, 2019, the allowance for doubtful accounts balance was calculated based on the expected credit loss model and expected credit losses continues to be insignificant.

As at June 30, 2019, 97.7% (December 31, 2018 – 90.3%) of trade receivables were outstanding less than 30 days, 1.1% (December 31, 2018 – 8.3%) were outstanding for between 30 and 90 days and the remaining 1.2% (December 31, 2018 – 1.4%) were outstanding for more than 90 days. Trade receivables are considered past due based on the contract terms agreed to with a customer. Aged receivables that are past due are not considered impaired unless customer specific information indicates otherwise.

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk on its long-term debt, for which the interest rates charged fluctuate based on the 90-day LIBOR rate. If interest rates had been 50 basis points higher, the net income during the six months ended June 30, 2019 would have been lower by $84. This represents $84 in increased interest expense (2018 - $95).

iii) Foreign exchange risk

As at June 30, 2019, the Canadian/U.S. foreign exchange rate was CA$1.00 = US$0.7636 (December 31, 2018 – US$0.7336). Assuming that all other variables remain constant, an increase of $0.10 in the Canadian dollar would have the following impact on the ending balances of certain interim statements of financial position items at June 30, 2019 and December 31, 2018 with the net foreign exchange gain or loss directly impacting net income (loss).

	June 30, 2019	December 31, 2018
Financial assets		
Cash and cash equivalents	$ 837	$ 839
Trade receivables	504	328
JV notes receivable	1,366	1,335
Financial liabilities		
Trade payables and accrued liabilities	(693)	(373)
Loan payable	(176)	(193)
Net foreign exchange gain (loss)	$ 1,838	$ 1,936

iv) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The following are the contractual maturities of financial liabilities as at June 30, 2019:

Financial liabilities	**Total**	**1 year**	**2-3 years**	**4-5 years**	**More than 5 years**
Long-term debt	$ 36,681	$ 3,717	$ 32,623	$ 341	$ -
Line of credit	5,000	5,000	-	-	-
Trade payables	9,389	9,389	-	-	-
Accrued liabilities	6,729	6,729	-	-	-
Lease liabilities	4,739	1,149	2,226	1,243	121
Other liabilities	1,205	-	1,205	-	-
Total	$ 63,743	$ 25,984	$ 36,054	$ 1,584	$ 121

It is the Company's intention to meet these obligations through the collection of current accounts receivable and cash from sales. If the current resources and cash generated from operations are insufficient to satisfy its obligations, the Company may seek to issue additional equity or to arrange debt or other financing. In addition, as at June 30, 2019, the Company has an operating credit facility of up to CA$13,000, of which US$5,000 was drawn as at June 30, 2019, less outstanding letters of credit totaling US$150 and CA$38.

(In thousands of United States dollars, except share and per share amounts, unless otherwise noted)

10 RELATED PARTY TRANSACTIONS AND BALANCES

On February 13, 2019, the Company announced that Pure Sunfarms had entered into a credit agreement with Bank of Montreal, as agent and lead lender, and Farm Credit Canada, as lender, in respect of a CA$20 million secured non-revolver term loan (the "Credit Facility"). The Credit Facility, which matures on February 7, 2022, is secured by the Delta 3 facility, and contains customary financial and restrictive covenants. The Company is not a party to the Credit Facility but has provided a limited guarantee in the amount of CA$10 million in connection with the Credit Facility.

As at June 30, 2019, the Company had amounts due from its joint venture, Pure Sunfarms, totaling $168 (December 31, 2018 - $1,079) primarily for consulting services and the reimbursement of expenses which occurred in the year. These amounts are non-interest bearing and due on demand. On July 5, 2018, the Shareholders entered into a Loan Agreement with Pure Sunfarms, whereby, as at June 30, 2019, the Shareholders had each contributed CA$13,000 (US$10,434) in the form of a demand loan to Pure Sunfarms. Effective January 1, 2019, the loan amounts bear simple interest at the rate of 6.2% per annum, calculated semi-annually. Interest is accrued and payable on demand being made by either Shareholder. Prior to January 1, 2019, the loan amount bore interest at the rate of 8.0%. These amounts are included in amounts due from joint venture in the interim statements of financial position.

On March 25, 2019, the Company entered into a Grid Loan Agreement (the "Grid Loan") with VF Hemp, whereby, as at June 30, 2019, the Company had contributed $5,193 in the form a grid loan to VF Hemp. The Grid Loan has a maturity date of March 25, 2022, and will bear simple interest at the rate of 8% per annum, calculated monthly.

Under the terms of the AVGG Hemp Joint Venture Agreement, the Company will lend approximately US$5 million to AVGG Hemp for start-up costs and working capital. The loans will bear simple interest at the rate of 8% per annum, calculated monthly (note 7). As at June 30, 2019, the Company had loaned AVGG Hemp approximately $552 (note 7).

One of the Company's employees is related to a member of the Company's executive management team and received approximately $54 in salary and benefits during the six months ended June 30, 2019 (2018 - $54).

Included in other assets as at December 31, 2018 is a $64 promissory note that represents the unpaid amount the Company advanced to an employee in connection with a relocation at the request of the Company. The promissory note was paid in full June 10, 2019.

14 SEGMENT AND GEOGRAPHIC INFORMATION

The Company's two reporting segments include the Produce business and the Energy business. The Produce business produces, markets, and sells the product group which consists of premium quality tomatoes, bell peppers and cucumbers. The Energy business produces power that it sells per a long-term contract to its one customer. The Company's Chief Operating Decision Makers also review the results of the Company's three joint ventures on a quarterly basis (note 7).

The Company's primary operations are in the United States and Canada. Net sales by the countries in which its customers are located are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2019	2018	2019	2018
Net Sales				
United States	$ 33,661	$ 32,892	$ 61,860	$ 60,318

Energy - Canada	245	454	557	979
	$ 41,329	$ 42,039	$ 73,219	$ 71,529

The Company's property, plant and equipment, net of accumulated depreciation, and right-of-use assets are located as follows:

	June 30, 2019	December 31, 2018
United States	$ 43,617	$ 43,651
Canada	25,902	30,459
Energy - Canada	3,134	3,369
	$ 72,653	$ 77,479

(In thousands of United States dollars, except share and per share amounts, unless otherwise noted)

Depreciation and amortization charges in the Produce business for the three and six months ended June 30, 2019 were $1,882 (2018 - $1,534) and $3,312 (2018 - $3,112), respectively. Depreciation and amortization charges in the Energy business for the three and six months ended June 30, 2018 were $226 (2018 - $188) and $454 (2018 - $411), respectively.

15 INCOME PER SHARE

Basic income per share is calculated by dividing the net income attributable to owners of the Company by the weighted average number of common shares in issue during the year excluding common shares purchased by the Company and held as treasury shares.

	Three months ended June 30,		Six months ended June 30,	
	2019	2018	2019	2018
Net income (loss) attributable to owners of the Company	$ 9,889	$ (2,282)	$ 17,536	$ (3,426)
Weighted average number of common shares outstanding (thousands)	48,825	43,336	48,322	42,894
Basic income (loss) income per share	$ 0.20	$ (0.05)	$ 0.36	$ (0.08)

Diluted income per share is calculated by adjusting the weighted average number of common shares outstanding to assume conversion of all dilutive potential common shares. The Company's share options are potentially dilutive to common shares. A calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average market share price of the Company's shares for the year) based on the monetary value of the subscription rights attached to outstanding share options. The number of shares calculated above is compared with the number of shares that would have been issued assuming the exercise of the share options. If dilutive effect is less than zero, then issuance is anti-dilutive and is excluded from dilutive income per share calculation.

	Three months ended June 30,		Six months ended June 30,	
	2019	2018	2019	2018
Net income (loss) attributable to owners of the Company	$ 9,889	$ (2,282)	$ 17,536	$ (3,426)
Weighted average number of common shares outstanding (thousands)	48,825	43,336	48,322	42,894
Adjustment for:				
Share options (thousands)	1,887	-	1,837	-
Weighted average number of common shares outstanding for diluted earnings per share (thousands)	50,712	43,336	50,159	42,894
Diluted income (loss) per share	$ 0.20	$ (0.05)	$ 0.35	$ (0.08)

For the three and six months ended June 30, 2019, there were options to purchase 2,612,216 (2018 – 2,197,999) and 310,000 (2018 – 2,197,999) shares, respectively, of the Company's common stock that were excluded from the diluted income per share computation because the impact of the assumed exercise of such stock options would have been anti-dilutive during the respective periods.

16 SHAREHOLDERS' EQUITY

In April 2019, the Company completed a bought deal offering of 1,000,000 common shares of the Company at an offering price of CA$20.00 per offered share for net aggregate proceeds to the Company of approximately CA$18,700 after deducting offering fees of CA$1,300.

The Company has a share-based compensation plan. The maximum number of common shares that can be issued upon the exercise of options granted is equal to 10% of the aggregate number of common shares issued and outstanding from time to time. The term during which an option may be exercised is 10 years from the date of the grant. Options generally vest at a rate of 33% per year, beginning one year following the grant date of the options. Share-based compensation expense for the three months and six months ended June 30, 2019 of $912 (2018 - $138) and $2,321 (2018 - $256), respectively, was recorded in selling, general and administrative expenses and the corresponding amount credited to contributed surplus.

During the six months ended June 30, 2019, 355,000 performance-based restricted share units were granted to Village Farms employees and directors involved with future developments of the Company. Once a performance target is met and the share units are deemed earned and vested, compensation expense based on the fair value of the share units on the grant date is recorded in selling, general and administrative expenses in the interim statements of income. There were 1,128,333 performance-based restricted share units outstanding as at June 30, 2019, of which 1,034,000 were not vested as at June 30, 2019.

17 REPORTING REQUIREMENTS

Effective January 1, 2020, the Company intends to comply with Securities and Exchange Commission reporting requirements applicable to U.S. domestic issuers. This will also require the Company's financial statements and financial data to be presented under U.S. generally accepted accounting principles ("US GAAP"). Accordingly, the Company will file its annual report on Form 10-K for the year ended December 31, 2019 under US GAAP, and regular periodic reports under both Canadian and U.S. law thereafter under US GAAP.
