NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

May 31, 2020 and 2019

(Expressed in Canadian dollars) - Unaudited

1. NATURE OF OPERATIONS AND GOING CONCERN

Freeman Gold Corp. (formerly Lodge Resources Inc.) (the "Company") was incorporated in the Province of British Columbia on October 24, 2018, under the Business Corporations Act of British Columbia. The Company is in the business of exploring exploration and evaluation assets. The Company's registered office is Suite 1500 – 1055 W. Georgia Street, Vancouver BC V6E 4N7 and its business office is located at 1570 – 505 Burrard Street, Vancouver, BC V7X 1M5. The Company's share commenced trading on the Canadian Securities Exchange ("CSE") under the symbol "FMAN".

On April 16, 2020 (the "Closing"), the Company completed a share exchange transaction (the "Reverse Takeover Transaction" or the "RTO Transaction") with 1132144 B.C. Ltd. ("113BC"), the parent company of Lower 48 Resources (Idaho) LLC ("Lower 48"), whereby the Company acquired all of the issued and outstanding common shares of 113BC through the issuance of 33,740,000 common shares of the Company, subject to escrow terms (see Note 9) to 113BC's shareholders. Additionally, the Company issued 3,500,000 common shares as finder fee shares to an arm's length finder that facilitated the Reverse Takeover Transaction. Prior to Closing 14,257,770 common shares of the Company were outstanding. Following Closing 51,497,770 common shares of the Company were outstanding, with 66% of the Company's shares held by shareholders of 113BC.

Management determined that the RTO Transaction constituted a reverse acquisition for accounting purposes whereby 113BC acquired the Company. For accounting purposes, 113BC is treated as the accounting acquirer (legal subsidiary), and the Company is treated as the accounting acquiree (legal parent) in these consolidated financial statements. As 113BC was deemed to be the acquirer for accounting purposes, its assets, liabilities and operations since incorporation are included in these financial statements at their historical carrying values. The Company's results of operations are included from the Closing date. The comparative figures are those of 113BC prior to the reverse acquisition. See Note 4 for transaction accounting details.

These unaudited condensed interim consolidated financial statements ("interim financial statements") have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. As at May 31, 2020, the Company is not able to finance day to day activities through operations and has an accumulated deficit of \$7,586,758. The continuing operations of the Company are dependent upon its ability to develop a viable business and to attain profitable operations and generate funds there from. This indicates the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Management intends to finance operating costs with loans from directors and companies controlled by directors and/or issuance of common shares. If the Company is unable to continue as a going concern, the net realizable value of its assets may be materially less than the amounts on its statement of financial position.

In March 2020, there was a global outbreak of COVID-19, which continues to rapidly evolve. The extent to which the COVID-19 coronavirus may impact the Company will depend on future developments, which are highly uncertain and cannot be predicted with confidence, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, social distancing, business closures or business disruptions, and the effectiveness of actions taken by countries to contain and treat the disease.

2. BASIS OF PREPARATION

a) Statement of compliance

These interim financial statements were approved by the Board of Directors and authorized for issue on July 30, 2020.

(Formerly Lodge Resources Inc.)

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

May 31, 2020 and 2019

(Expressed in Canadian dollars) - Unaudited

2. BASIS OF PREPARATION (continued)

These interim financial statements have been prepared in accordance with *International Accounting Standard 34 - Interim Financial Reporting* using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board. As such, these interim financial statements do not contain all the disclosures required by IFRS for annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the years ended November 30, 2019 and 2018 ("annual financial statements").

The Company has reclassified certain items on the comparative consolidated statements of loss and comprehensive loss and consolidated statements of cash flows to improve clarity.

b) Basis of presentation

These interim financial statements have been prepared using the historical cost basis, except for certain financial assets and liabilities which are measured at fair value, as specified by IFRS for each type of asset, liability, income and expense as set out in the accounting policies below.

c) Functional and presentation currency

These interim financial statements are presented in Canadian dollars, except as otherwise noted, which is the functional currency of the parent and the Company's wholly owned subsidiaries Lodge Minerals Inc. ("Lodge"), 113BC, and Lower 48.

d) Basis of consolidation

These interim financial statements include the accounts of the Company, and its wholly-owned subsidiaries including Lodge Minerals Inc. ("Lodge"), 113BC, and Lower 48 (see Notes 1 and 4). Control exists where the parent entity has power over the investee and is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are included in the financial statements from the date control commences until the date control ceases. All intercompany balances, transactions, revenues and expenses have been eliminated on consolidation

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied in the preparation of these interim financial statements are consistent with those applied and disclosed in Note 2 to the annual financial statements of the Company with exception of the following:

a) Flow-through shares

Proceeds from flow-through issuance are allocated between the offering of shares and the sale of tax benefits based on the difference between the quoted price of the existing shares and the amount the investor pays for the shares. A liability is recognized for this difference and is extinguished by crediting other income when the Company has made the required expenditures and there is a reasonable expectation of the renunciation of these expenditures to the tax authorities.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Leases

Effective December 1, 2019, the Company adopted all of the requirements of IFRS 16. IFRS 16 specifies how an IFRS reporter will recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. There was no material impact on the Company's consolidated financial statements upon the adoption of this new standard.

c) Significant estimates and critical judgements

The preparation of consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, revenues and expenses. Management continually evaluates these judgments, estimates and assumptions based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates and the resulting effects on the carrying amounts of the Company's assets and liabilities are accounted for prospectively. Actual results may differ from these estimates and judgments which may cause a material adjustment to the carrying amounts of assets and liabilities

The Company's interim results are not necessarily indicative of its results for a full year. The significant judgements and estimates applied in the preparation of these interim financial statements are consistent with those applied and disclosed in note 3 of the annual financial statements, except for the below:

Assessment of transactions as asset acquisitions or business combinations

Management has had to apply judgment relating to the reverse takeover transaction between 113BC and the Company with respect to whether the acquisition was a business combination or an asset acquisition. Management applied a three-element process to determine whether a business or an asset was purchased, considering inputs, processes and outputs of each acquisition in order to reach a conclusion.

d) Accounting standards and interpretations issued but not yet adopted

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements. Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

4. REVERSE TAKEOVER TRANSACTION

Pursuant to the RTO Transaction, on April 16, 2020, the Company issued 33,740,000 shares in exchange for all the issued and outstanding shares of 113BC, whereby 113BC and its subsidiary Lower 48 became wholly owned subsidiaries of the Company. For accounting purposes, the RTO Transaction was considered a reverse takeover whereby the Company was deemed to be the acquiree and 113BC the acquirer. The Company did not meet the definition of a business, therefore the Transaction is outside of the scope of *IFRS 3 Business Combinations*, instead, the Transaction was accounted for under *IFRS 2 Share-based Payments*. Accordingly, no goodwill or intangible assets were recorded with respect to the RTO Transaction.

4. REVERSE TAKEOVER TRANSACTION (continued)

Net assets (liabilities) of the Company acquired

Under this basis of accounting, the consolidated entity is considered to be a continuation of the Company, with the net identifiable assets of the Company deemed to have been acquired by 113BC at fair value as at April 16, 2020, and the assets, liabilities and operations of 113BC are included in the financial statements at their historical value and include the results of the Company for the period from Closing through May 31, 2020.

For purposes of the RTO Transaction, the consideration paid and the fair value of the net assets (liabilities) of the Company as at April 16, 2020 is preliminarily as follows:

As at April 16, 2020

Tier uspees (numinoes) of the company acquired	115 40 11 11 10, 2020

6. EXPORATION AND EVALUATION ASSETS (continued)

b) Soap Gulch Property

On November 1, 2017, the Company entered into an option agreement with Battis BLK Group ("BLK Group"), whereby the Company would earn a 100% interest in the Soap Gulch Property, located in Butte-Silver Bow County in Montana, USA ("Soap Gulch Property"). As consideration, the Company made the following payments:

- i) USD \$50,000 to BLK Group within seven days of signing this agreement (paid \$64,781)
- ii) USD \$25,000 in year one (paid by Alpha Lithium)

On December 9, 2017, the Company entered into a non-binding letter of intent ("LOI") with L2 Cobalt Inc., which was acquired by Alpha Lithium Corporation (collectively, "Alpha Lithium"), to sell its option agreement related to the Soap Gulch Property. Pursuant to the execution of the LOI, Alpha Lithium made a payment of \$25,000 to the Company. On February 26, 2018, the parties executed the underlying definitive agreement, whereby Alpha Lithium must make the following payments to the Company:

- i) pay \$150,000 (not received) and issue 500,000 Alpha Lithium common shares, at a fair value of \$112,500 (received) within 7 days of TSX Venture Exchange approval (the "Approval Date");
- ii) pay \$50,000 and issue \$250,000 of Alpha Lithium shares on the one year from the Approval Date; and
- iii) pay \$25,000 and issue \$500,000 in value of Alpha Lithium common shares two years from of the Approval Date.

On February 1, 2020, the definitive agreement was terminated and the Company released Alpha Lithium for all outstanding payments. On February 1, 2020, the Company assigned the option agreement to acquire Soap Gulch Property to a company controlled by the CFO of the Company for \$1.

c) Lemhi Property I

On October 16, 2019, the Company entered into an option agreement to acquire 100% of the rights and interest in certain mining claims located in Lemhi County, Idaho ("Lemhi Property I") for USD\$1,615,000. As at May 31, 2020, the Company has paid \$1,872,002 (USD \$1,615,000) to acquire the Lemhi Property.

d) Lemhi Property II

On August 19, 2019, the Company entered into an option agreement to acquire a 100% interest in 46 unpatented mining claims located in Lemhi County, Idaho ("Lemhi Property II"). In order to exercise the option, the Company is to make the following payments:

- i) USD \$75,000 within 3 days of the effective date (paid \$101,475);
- ii) USD \$50.000 on or before the first anniversary of the effective date:
- iii) USD \$50,000 on or before the second anniversary of the effective date;

10. FINANCIAL INSTRUMENTS

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include interest rate risk, credit risk, liquidity risk, and currency risk and price risk. The carrying value of the Company's financial instruments approximates their fair value due to their short- term nature. Fair value measurements of financial instruments are required to be classified using a fair value hierarchy that reflects the significance of inputs in making the measurements. The levels of the fair value hierarchy are defined as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – Inputs for the asset or liability that are not based on observable market data.

The carrying value of Company's financial assets and liabilities as at May 31, 2020 and November 30, 2019 approximate their fair value due.
